

# How We Choose Our Travel Itineraries

Little known . . .

Familiar sites Seen differently . . .

Our travel site itineraries focus on the food, wine, art and design of Italy. They are not a boxed set or an Italian trip du jour. That's not to say you shouldn't see the Coliseum in Rome or the Milan Duomo. It just means that our travel experiences move slightly outside the box **up on the roof** of the Duomo in or eating at a ristorante like **Da Pancrazio** built over the ruins of the Theatre of Pompey where Julius Caesar was murdered on the Ides of March.

The spirit of Italian travel is what drives us and frames our site itineraries. Each one is experiential and based on our taste travels in Italy with our Italian family and friends. Each site itinerary can be included in your trip as desired and are suggested to heighten your travel experience.
